4. Implikasi Kurikulum Sekolah Hijau Berbasis STAM

Dalam gagasan ini pendidikan sekolah dasar dipilih untuk menanamkan karakter sosial sains

Pengembangan sekolah hijau memadukan pendekatan pendidikan STEAM (Science, Technology, Engineering, Arts, dan Matematic).

Penggunaan media ini sudah memastikan adanya kebutuhan kompetensi abad 21 yang terinternalisasi dalam diri peserta didik usia sekolah dasar.

A screenshot of a Zoom meeting interface. The main video frame shows a participant named Ulfa Muna. To the left of the video, there is a slide titled "4. Implikasi Kurikulum Sekolah Hijau Berbasis STAM". The slide contains a bulleted list of points about the integration of environmental education into the curriculum. Below the slide, there is a footer with the text "The Fountain of Wisdom" and the website "unida.gontor.ac.id". The top of the screen shows the Zoom control bar with options like "View Options", "Sign in", and "Participants (30)". On the right side, there is a "Participants" list showing 30 participants with their names and profile icons. Below the participants list is a "Meeting Chat" window where a message has been sent. The bottom of the screen shows the Windows taskbar with various pinned icons and system status indicators.
