LATAR BELAKANG

The existence of pesantren as an Islamic educational institution that has advantages both in terms of its scientific tradition and the transmission and intensity of Muslims is threatened by the globalization. The results show that the idea of modernization of pesantren must be able to foster a proper appreciation of all developments that occur in the present and future, so that it can produce broad-minded scholars, but must still maintain its main characteristic of producing scholars and tafaquh fiddien without being carried away by globalization. 5 th National Conference of Tarbiyah 2024 seeks to facilitate meaningful discussions and collaborations around current issues, trends, and challenges in education, as well as showcase innovative research and practices. By bringing together a diverse group of professionals from around the world, the conference aims to foster a deeper understanding of the field, inspire new ideas and approaches, and contribute to the advancement of education globally. This conference is organized by Faculty of Tarbiyah, UNIDA Gontor. This covers three fields of knowledge as the main discussion: Islamic education, Arabic language teaching, and English language education. This aims to support the existence of Tarbiyah Faculty as well as facilitate all academicians to improve their recognition and publication opportunities in line with the obligations of Tri Dharma Perguruan Tinggi: teaching, researching and doing community services.
